

Date:

How did you find the PSII meeting?

I felt like:

I played a role in the discussions and that I was spoken to directly.			
I could express myself freely, even when I didn't agree with certain things.			
My opinion counted.			
My strengths were recognized.			
My situation was understood.			
The support workers clearly shared all the information with me.			
I was able to participate in the decisions regarding the actions that were identified in my PSII.			
Everyone wanted to work together to help me.			

I think that:

This meeting was helpful in responding to my needs.			
The game plan is clearer for everyone.			
The actions identified will help me.			
I have a support worker who will be there for me in the future.			

I'd also like to add that:

Thank you for your invaluable collaboration!
