

Taking steps ALL TOGETHER!

PSII Individualized Intersectoral Service Plan

Who can propose to plan an PSII meeting?

You as a parent

Your child aged 14 years or +

Your support worker from the education, health and social services or community network

*in collaboration with you and your child

What is it?

The PSII is a process that aims to bring together all of the partners involved around a common vision of your child's primary needs and to ensure that the actions and services are helpful and efficient.

Who is it for?

For children who are receiving or will receive services from both the education network and the health and social services network, and who are in a situation that requires partners to come together in order to take more effective action.

What is the objective?

To have a common vision of your child's needs.

To make the supportive interventions your child receives truly meaningful.

To work together more effectively.

To ensure that the right services are available at the right time.

As a parent, you have the right to:

Consent to or refuse the PSII process and the exchange of information, at any time.

Be accompanied by a person of your choice during the process.

Participate in choosing partners who will be invited to attend the PSII meeting.

Express yourself and participate in making decisions.

Ask for a review of the PSII if your child's situation changes, if the planned services are not received or to terminate the PSII.

Obtain a copy of the relevant documents.

** If you do not wish to use the PSII process, your child can continue to receive services and assistance from their current support workers or you can request new services as needed.*

Taking steps ALL TOGETHER!

A tool for
parents

PSII Individualized Intersectoral Service Plan

Your reflection tool

Right now,
my child's **primary or priority need** is:

Are the steps being taken and the services helpful and is
everyone working **together** to meet my child's primary need?

Would it be helpful for everyone to meet to get a better understanding of my
child's priority needs and the services required?

I can talk to my child's support workers and discuss the
possibility of using the PSII process.

Your child's needs are at the very **heart** of this process.

The PSII is there to better meet to your child's needs and
better support you in your role as a parent.
